Re: US Airways Announcement

Dear Ms. Maybriar:

We are writing to inform you that effective August 16, 2010, US Airways will permanently eliminate all Fleet Service employees presently employed at the US Airways facility located at Port Columbus International Airport, 4600 International Gateway, Columbus, Ohio 43219 (the "Facility"). The function performed by Fleet Service employees will be outsourced. The above-described decision was made following the assessment of profitability at the Facility and the impact of outsourcing this function.

All affected employees at the Facility have been notified of the effective date of the elimination of their positions. Their furlough is considered a permanent separation for WARN Act purposes. The following collective bargaining representative has been notified:

Michael Crowell
International Association of Machinists
393 Farabee Homestead Road
Lexington, NC 27295

The Collective Bargaining Agreement provides for bumping rights when there are insufficient available vacancies at other airport locations within the US Airways system; however, there are no bumping rights in this case because there are sufficient vacancies and all affected employees may elect to transfer to other airport stations pursuant to their Collective Bargaining Agreement.
