Re: Sun Microsystems, Inc. Reduction In Force & WARN Notification

This memorandum shall serve to notify you that Sun Microsystems, Inc. will be implementing a reduction in force which may constitute a mass layoff or plant closing as defined by the federal Worker Adjustment and Retraining Notification ("WARN") Act or by any state notification statute of a state with an affected site. Sun has announced the need to reduce overall spending in its fiscal year 2009, including a reduction in headcount. Sun has identified and continues to identify which employees will be impacted. Based on the best information available to Sun at this time, Sun expects to release employees throughout the United States between May 30, 2009 and June 13, 2009, with the majority of terminations occurring on May 30, 2009. At this time Sun has preliminary information that additional employees will be terminated sometime between July 27, 2009 and August 10, 2009. Notice is being given to affected employees to ensure that each has received at least 60 days notice of termination.

The "WARN Data" attached hereto indicates the sites and updated number of employees who were/will be terminated between March 23, 2009 and April 6, 2009, in connection with a prior reduction, and the sites and number of employees to be terminated between May 30, 2009 and June 13, 2009. The information contained in this notice is the most current information at this time and supersedes any prior forecasts reported in any earlier notices. This information may change due to subsequent events beyond our control and as additional business units continue to assess their needs. For example, Sun expects that some affected employees may find alternate employment in another Sun organization before their employment termination date. Affected employees that are currently on approved family, medical or pregnancy/disability leaves of absence may elect to terminate employment before or at the end of their leaves.

Sun provides 60 days pay and other benefits pursuant to law. Sun expects that the reductions will be permanent. Bumping rights do not exist.
