

Sterling Heights Assembly Plant

April 2, 2008

Bureau of Workforce Programs
Lloyd Conway, Active Manager
Rapid Response Section
201 North Washington Square
Victor Office Center – 5th Floor
Lansing, Michigan 48913

Dear Mr. Conway:

Today, Chrysler announced that the work of ITM's Information Technology Infrastructure group located at the Sterling Heights Assembly Plant (38111 Van Dyke, Sterling Heights, MI 48312-1174) related to mainframes and servers will be transitioning to a new service provider. We also indicated that employment opportunities with the new service provider will be available to impacted employees, all of whom are salaried employees. It is anticipated that these and other employment actions will begin in late May and conclude at the end of the second quarter (June 30). With these actions, the Chrysler employment of impacted employees will permanently end. The employees do not have "bumping rights", as they are not represented by a union. Attached is a document listing the job classifications that will be affected and the number of impacted employees in each classification.

If you have any questions, please contact me at (248) 944-5258.

Sincerely,

A handwritten signature in cursive script that reads "Bridget Crane".
