

WARN ACT NOTICE TO STATE AND LOCAL OFFICIALS

March 6, 2007

Deborah E. Hennessey, Section Chief
Rapid Response Section
Bureau of Workforce Programs
Michigan Department of Labor & Economic Growth
Victor Office Center – 5th Floor
201 N. Washington Square
Lansing, MI 48913

This notice is being given to you pursuant to the Worker Adjustment and Retraining Notification Act of 1988, which requires employers to give official notice to certain government units or officials of a pending facility shutdown.

As you may be aware, on March 2, 2007, Pine River Plastics, Inc. learned that the group proposing to purchase Pine River's assets would not proceed with the transaction. Because of the decision by the purchaser not to proceed, and the related decision by Pine River's principal customers to resource their business to other suppliers, it is unlikely that Pine River will be able to continue its operations on a long term basis. Pine River had previously filed a voluntary petition for business reorganization under Chapter 11 of the U.S. Bankruptcy Code in Detroit, Michigan on February 1, 2007.

As a result of this recent development, Pine River expects that its plant located at 1111 Fred W. Moore Hwy., St. Clair, MI 48079 will be permanently closed. While an exact date has not been established for this closure, it is anticipated to take place in the next 14 days, or possibly longer, depending on a number of factors, including the amount of time required for customers to resource their business. Lay-offs will begin immediately and will continue over this period as Pine River's workforce requirements decline. All positions and jobs at the plant will be eliminated. It is anticipated that 195 employees at the plant will be affected by the closure of the plant. The facility is non-union.

Please contact Human Resources if you have any questions.
