Ms. Chong-Anna Canfora, Director  
Rapid Response Section  
Michigan Department of Labor & Economic Growth  
611 West Ottawa Street, 4<sup>th</sup> Floor  
P.O. Box 30004  
Lansing, Michigan 48909

Dear Ms. Canfora:

Subject: Notice of Cessation of Production and Plant Closing Pursuant to the W.A.R.N. Act

Pursuant to the "Worker Adjustment and Retraining Notification Act" (W.A.R.N.) you are hereby notified of a planned cessation of production operations and a plant closing as defined by the W.A.R.N. Act, at GM Powertrain, Flint North Transmission Components Plant, Flint, Michigan.

Specifically, it is anticipated that cessation of 85% of production operations encompassing the transmission components produced at the Flint, Michigan Powertrain plant will commence on or about November 1, 2010 and the final 15% will cease operation by November 19, 2010. The cessation of production operations is due to the end of the product life cycle for the transmission components produced at this plant. The cessation of production operations will result in the indefinite layoff of approximately 330 employees represented by the UAW. There will be approximately 30 employees who will be decommissioning the plant operations until December 23, 2010. During this time, there will be approximately 70 job transfer offers that will be made available for Powertrain, Flint Engine. The names of employees and job classifications anticipated to be laid off are attached

Attachment: Job classifications that will be laid off.

Employees laid off by this action may be eligible to receive State Unemployment Compensation and/or Supplemental Unemployment Benefits in accordance with Exhibit "D" to the Agreement between General Motors Company and the UAW dated October 15, 2007, and any subsequent contractual revisions thereof agreed to by the parties.

Any questions regarding this matter may be directed to:

Jeremy Vida  
Personnel Director  
Powertrain – Flint North  
902 E. Leith Street
