RAPID RESPONSE
WORKFORCE PROGRAMS

Dear Chong-Anna Canfora:

In compliance with the Federal Worker Adjustment and Retraining Notification Act ("WARN Act"), 29 U.S.C. 2101 et seq., this is to notify you that, according to the best available information, Pilkington will completely close its Clinton, Michigan facility. We anticipate the phased closure will be completed by the end of summer 2010.

The current economic downturn and its direct effect on the Automotive industry are continuing to have an impact on our Automotive volumes in North America. The unprecedented drop in demand and the reduction of future orders means there is insufficient work to keep the Clinton operation viable going forward.

According to the best possible information at this time, the number of employees that will be permanently affected is 130. Employees at all job positions are subject to this closing. We are providing a list of the job classifications with the names and the number of affected employees in each classification. Employment separations are anticipated to begin on January 2, 2010 and continue until September 30, 2010. For further information, please contact Brian Stierle at 517-456-2141.

Sincerely,

Gregory Thomas
