Re: Warn Notice Response, Further Explanation

From: Bill Smith Sr. VP

We met with the local office of the Ohio J & FS and our county commissioners on March 12, 2009 and our employees on March 13, 2009 regarding our plans to reduce the total workforce and the plan to consolidate our Greenfield, Ohio facility into our Hillsboro, Ohio facility. We met with the respective mayors of Hillsboro and Greenfield on March 16, 2009. This consolidation is to involve moving the manufacturing operations from Greenfield to Hillsboro and shutdown two of the manufacturing lines in Hillsboro. The resultant headcount when fully completed will be approximately 145 associates. The original plan involved the two Hillsboro lines, at our customers' request, being removed back to South Korea and Japan during the months of June and July. It appears now that the line removal will not occur until sometime in October to December.

Therefore, as it appears today, any further large reduction will not occur until this fall. Our headcount will remain relatively constant until those two lines move out.

I have included our monthly activity of reductions of at least six months or more to this point since June, 2008. Please note that the locations listed in the second column are:

WHO - Hillsboro, OH facility

WGO - Greenfield, OH facility

WSO - Seaman, OH facility, now closed as of Sept., 2008

Thank you for your time and attention and if you have questions, you may contact me at the phone number listed on the Notice of Closing.

Sincerely,

Bill Smith
